Blog

Create a blog

A blog is a regularly updated website or web page, typically run by an individual or small group, that is written in an informal or conversational style.

Creating a blog requires access to a webpage or blogsite. Examples: Blogger, Weebly, Google Sites.

To be successful, there is a need to consistently update the content.

A blog is similar to an online diary /journal and can be personally opinionated or purely informational.

Google 'kid bloggers' for inspiration
